

PREVENTIVE MAINTENANCE SOLUTIONS

MAXIMISE YOUR UPTIME AND MINIMISE COSTS

Piling is a critical part of any construction project and in many cases, there's no substitute piling equipment available when something goes wrong – that is why it is in everyone's interests to keep the piling equipment up and running. Junttan Preventive Maintenance Solutions are formed to help our customers maximise uptime and minimise the costs of maintaining their Junttans. The new Preventive Maintenance Program and the solutions are developed by listening closely to our customers and with Junttan network's 40-year experience in spare parts and service operation.

WHY SHOULD YOU USE JUNTAN PREVENTIVE MAINTENANCE SOLUTIONS?

- Life cycle operating costs are reduced compared with traditional breakdown maintenance
- Costly downtime decreases and the number of major repairs is reduced
- Productivity and efficiency of the equipment remains at top level
- Life cycle of equipment is extended and the resale value is maintained
- Operational safety and quality are improved
- Planning of operations is easier when standard costs are known in advance
