

**TECHNICAL
SUPPORT**

ALWAYS CLOSE BY

When something goes wrong with your piling equipment, the problem needs to be solved as soon as possible. The Junttan Network is always close by to sort out your trouble promptly and professionally. The development of technology has made solving issues even faster: with the Junttan Remote Center support and Junttan Remote Connection you can get remote diagnostic support over the web and get your problems fixed faster than before.

TECHNICAL SUPPORT CHANNELS

- For the fastest and localised support, contact your local Junttan dealer: www.junttan.com/contact-us
- Junttan Factory Technical Support is at your service daily from 06:00 to 22:00 (GMT+2) by phone +358 10 194 482 or e-mail: service@junttan.com
- Our Remote Center is ready to handle remote support requests on the newer X Series machines
- For generic questions, the Junttan Life Online Forums is at your service

JUNTAN REMOTE CENTER SUPPORT

- The fastest way to diagnose issues on new X Series machines
- The time of diagnosing and fixing issues is decreased in many cases from days to hours
- In addition to diagnostics, optimisation and software updates can be done remotely
- Requires the Junttan Remote Connection and mobile network coverage on site

CONTACT

Contact your local Junttan dealer or Junttan Factory Technical Support by phone or e-mail

DIAGNOSTICS

With the Junttan Remote Connection, our Remote Center crew can diagnose the issues remotely.

SOLUTION

Professional guidance is given to solve issues and the required further procedures are handled quickly.

KEEP ON PILING

The Junttan Network is available to fix the issues so you can get back to work as soon as possible.
