Junttan PM 20LC is a compact piling rig for pile driving timber, steel and concrete piles. It has a bigger maximum capacity for pile and hammer load and a wider leader reach than its smaller brother PM 20L. The recommended hammer weight is from 4 000 to 5 000 kg and the maximum pile length is 19 meters (62 ft). The rig has proven productivity due to excellent mobility. The telescopic leader ensures easy and fast handling of piles. Top pile driving performance is guaranteed with Junttan hydraulic hammers. An optional side drill or vibrator hammer makes pile driving even more efficient in some soil conditions. Versatility of the rig can be increased with additional drilling equipment. With optional Junttan equipment, optimised working set-up of the rig can be easily achieved.

This Junttan piling rig has the same proven features as the bigger Junttan machines. Its rugged design makes it a safe and reliable rig even in the most demanding working conditions. The self-erecting leader and many advanced technical features ensure that the rig is ready to work in just a few minutes. The ergonomic and safety tested cabin allows the driver to concentrate completely on his work. The expandable tracks and low centre of gravity make the rig exceptionally stable in different working situations. The horizontal movement of the leader ensures fast spotting of the pile. Because of the compact size the rig can be easily transported to a new working site.

General Information

Junttan PM 20LC with top cathead

PM 20LC with leader extension and side cathead

* Pile length depends on the hammer. See the table of hydraulic hammers beside.

Uppercarriage

Winches (single line pull, 1. layer)

- Main winch (hammer) kg (lb): 10 000 (22 000)
- Aux. winch (pile) kg (lb): 10 000 (22 000)

Engine

- Make and Model: Cummins QSB6.7
- Power kW (hp): 179 (240)
- Fuel tank volume l (gal): 600 (158)
- Hydraulic oil tank volume l (gal): 600 (158)
- Max. oil flow l/min (gpm): 2x 160 + 86 at 2000 rpm (2x 42 + 23 at 2000 rpm)
- Max. pressure bar (psi): 320 (4640)
- Counterweight Weight kg (lb): 6 200 (13 670)

Undercarriage

- Type: AV 20LC9201
- Crawler length mm (ft): 5050 (16 3/4)
- Min. width mm (ft): 3350 (11)
- Max. width mm (ft): 4350 (14 1/4)
- Triple grouser type track shoes mm (ft): 900 (2 15/16)
- Transport dimensions Length m (ft): 18.9 (62)
- Width mm (ft): 3350 (11)
- Height without hammer mm (ft): 3500 (11 3/8)
- Height with hammer mm (ft): 3700 (12 3/8)
- Total weight kg (lb): 44 000 (97 000)
  (excluding hammer, counterweight and any additional equipment)

Optional equipment

- Leader hinge
- Leader extension 1.8 m (5 7/8 ft)
- Side cathead
- Side drill (JD 1.5 or JD 3)
- Stabilizers (rear legs)
- Air conditioning for cabin
- Vibrator
- Aux. II winch 5 000 kg (11 000 lb)
- Energy measuring device
- Flat track shoes
- Narrow track shoes 800 mm (2 5/8 ft)
- Wide VLC-crawler 3.1-4.5 m (10 3/16-14 ¾ ft)
- Other accessories available on request

Approvals

Manufactured according to EN 996 standard
