

## FIRE SUPPRESSION SOLUTION

Junttan  
**LIFE**

### PROTECT YOUR INVESTMENT WITH AUTOMATIC FIRE SUPPRESSION

Junttan has collaborated with the leading fire protection system developer to bring a solution for fire suppression to piling rigs that is automatic, robust, reliable and effective. The solution enables the fire to be suppressed inside the machine with high precision and to limit the damages to a minimum level. The solution can be factory installed to new machines and retrofitted to older machines as well. We recommend this for all responsible machine owners.

#### BENEFITS

- FULLY AUTOMATIC FIRE SUPPRESSION
- VERY FAST ACTION
- AUTONOMIC & DOES NOT REQUIRE ELECTRICITY TO FUNCTION
- LIMITS THE FIRE DAMAGES VERY FAST
- SAFE FOR MACHINE COMPONENTS
- USES MAINLY WATER (NON-CAUSTIC)
- EASY TO CLEAN UP AFTER ACTIVATION
- LOW LIFE CYCLE COSTS
- INSURANCE COSTS CAN BE LOWERED WITH AUTOMATIC FIRE SUPPRESSION SYSTEM
- THE MACHINE DOWNTIME AFTER FIRE IS REDUCED WITH FAST FIRE SUPPRESSION

#### CERTIFICATES

- IATF-16949
- UNECE R-107, 2017
- SPCR183-approved by SP, 2016
- SS-EN ISO 9001:2015, renewed 2016
- SS-EN ISO 14001:2015, renewed 2016
- AS 1851 approved by Standards Australia, 2014
- RINA, ISO 9094-1/2, 2014
- UL-listed, 2014
- Bureau Veritas approved, 2009
- SBF127- and SBF128 approved, 2004
- Approval from the Swedish Maritime Administration, 1997
- FIA

#### FACTS:

- Attacks all sides of fire event – takes away the heat, oxygen, and fuel from the fire
- Insurance companies and job sites are increasingly requiring automatic fire suppression systems
- Optional extra for new machines and retrofit solution for older machines
