

JUNTTAN
respecting ground

GLOBAL PILING SPECIALIST

Junttan has over 45 years' experience in developing and manufacturing the industry's leading piling equipment. Our piling product range comprises pile driving rigs, multipurpose drilling rigs, as well as hydraulic impact hammers and power packs.

Our best-in-class product range helps us to offer personalized services to customers with varying requirements and to develop customer-driven services.

We support our customers around the world with a wide range of services such as spare parts, maintenance services, modernisations and digital services. We help our customers to make the most out of their piling equipment investment by ensuring that they have the top-notch machines and tools to do their job in the best possible way, no matter where in the world their next site may be.

RIGHT SOLUTION FOR EVERY DEEP FOUNDATION PROJECT

During our long history, Junttan has established a solid position in a wide variety of piling projects around the world. With a strong experience of demanding projects Junttan is able to provide solutions for all your pile foundation and soil improvement needs.

ALWAYS CLOSE BY

Wherever your construction projects may take you, rest assured.

The Junttan service network is close to you by offering a wide range of professional services to meet all your needs. Throughout the service life of your Junttan machinery, we help you to keep it in the best possible condition and able to withstand even the most demanding challenges and operating environments.

We are confident that Junttan products and services will lead to a life-long partnership. That's why we are with you during every step of your Junttan Life, right from the very first contact. Junttan Life is all about profitable, safe, effortless, and reliable partnership. You can focus on running your business while we take care of your Junttan equipment.

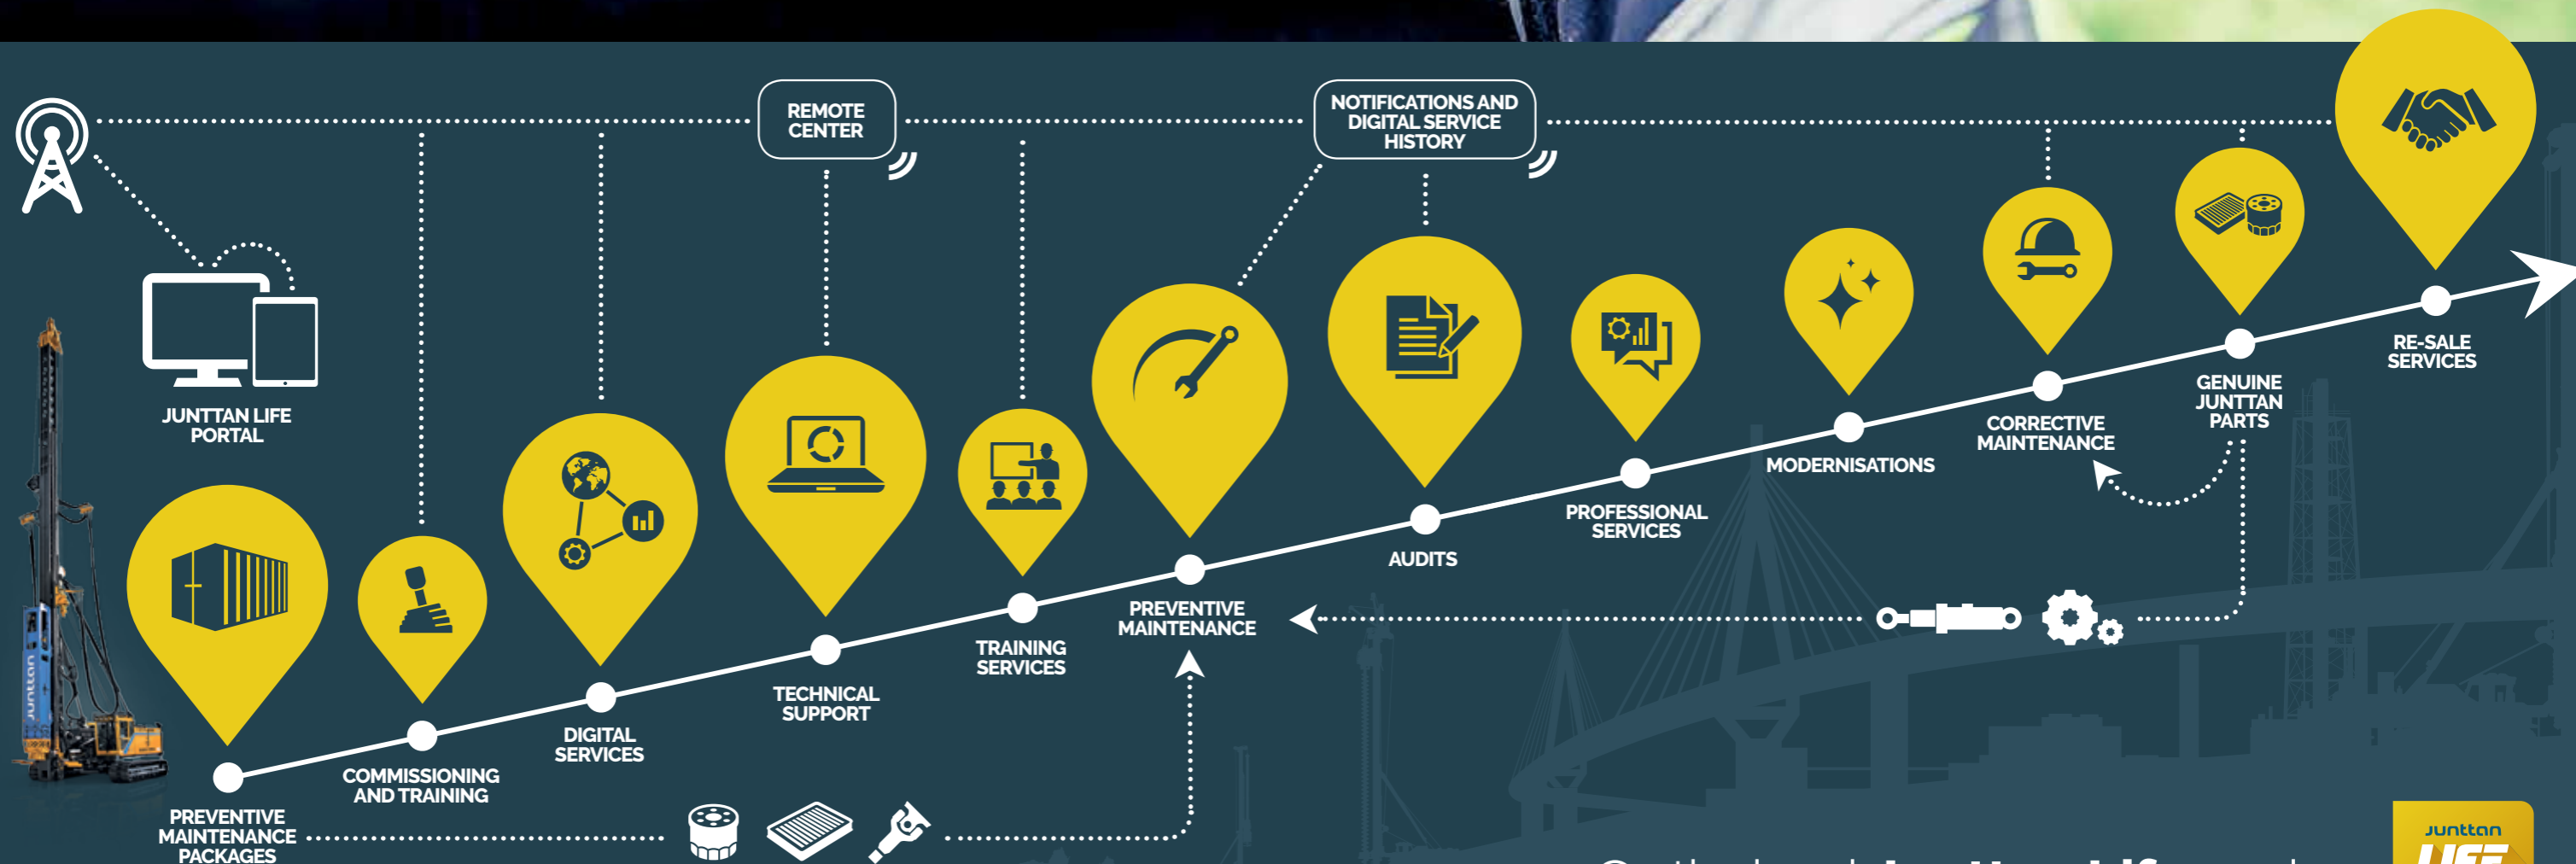

A key part of Junttan Life is our digital services that ensure effortless and carefree workflow. Junttan Life Portal gathers all the digital information and services in one easy-to-use and comprehensive web site.

LIFE-LONG PARTNERSHIP

TOTAL PROFITABILITY

SAFETY

Optimised **Junttan Life** cycle

Pile driving rigs

The advanced technical performance and a full range of customisation alternatives are the core elements of every Junttan pile driving rig. In addition to leading reliability and productivity at work, these machines feature a collection of thoroughly considered details, which further enhance the operational efficiency.

The safety and comfort of the operator is one of our fundamental priorities. The Junttan pile driving rigs have been designed to ensure top-notch practicality as well as a minimal amount of noise and vibration. Thanks to the lesser amount of harmful emissions, they are also more eco-friendly than conventional diesel hammers and mechanical piling rigs. Furthermore, Junttan takes one step ahead in the pursuit of a sustainable future with the fully battery powered electric pile driving rigs, eJunttans, raising the bar to yet another level. Built as the same reliable and strong Junttan rigs, but this time having a modern electric soul with no local CO² emissions.

Hydraulic impact hammers

Utilising industry-leading technology and know-how, the Junttan hydraulic impact hammers will make the most of the available opportunities, at every construction site. As up to 95 per cent of the hammer's energy is transferred to the pile and its progress, the pile installation can take place with optimal efficiency – not only when it comes to energy, but also time and costs as well.

The Junttan hammers are manufactured with a keen eye on sustainable development. As a result, they create less noise and vibration and fewer emissions than conventional hammers. A smooth installation process helps ensure that everything takes place with as little impact on the environment as possible.

By gaining a comprehensive understanding to achieve the evolving, ambitious goals of modern construction business, we have tested and developed our hammers to provide the best possible performance under all conditions. Our versatile selection of equipment ensures that for every construction challenge, the ideal solution can be found.

OPTIMAL EFFICIENCY
Up to 95% of the hammer's efficiency transferred to the pile

Power packs

The Junttan Power packs are ready for use quickly, and the low noise level further enhances their user-friendliness. They are compact, yet powerful pieces of equipment that can conveniently be transported from one construction site to another.

The Junttan Power packs are designed to be used with hammers, rotary heads, and vibrators. The compact structure and remote control possibility enable them to be used ranging from simple to highly demanding situations, and you to get the most out of your hammer.

By efficiently combining the sheer power with the ability to perform, Power packs are able to ensure the most effective, reliable, and flawless flow throughout the piling process. Thanks to their easy handling, excellent durability, and first-class fuel economy, the Junttan Power packs enable optimal functionality even in the most demanding conditions.

Multipurpose piling rigs

The Junttan multipurpose rigs are designed to operate widely in the largely varying field of piling work, able to install driven as well as different types of bored piles. Each model of machine, however, can be considered unique, with its own special features and characteristics, and designed in accordance with customer wishes and requirements. Along with the other excellent features, the Junttan multipurpose rigs are able to provide easy transportability from one job site to another, exceptional stability, operational safety, consideration of the environment, and, above all, high productivity.

RENTAL
Junttan

Junttan Rentals and Leasing

Reducing fixed costs and lowering the risk-level of your construction business can be a key-factor for your success. For us at Junttan our main goal is, that our customers succeed in whatever project they are working on. To increase your profitability and to help your company grow, we have launched a new way of using Junttan products: Junttan Rentals and Leasing.

THE BENEFITS OF JUNTAN RENTALS:

- No fixed costs, just pay for the time you need the equipment.
- Always safe, efficient and modern equipment.
- Save time and money, we will take care of insurances, logistics and all other additional services that you need.
- Renting is green. It lessens harmful emissions, reduces the quantity of equipment needed and is more energy efficient than owning a piece of equipment.
- By renting equipment, you avoid the excessive investment burden and maintenance costs, both of which increase the overall cost of your project.

THE BENEFITS OF JUNTAN LEASING:

If you want to buy a Junttan product, but do not want to invest any capital at once. Junttan Rental can also offer you leasing services, that help you to cut your need of capex.

- No capital expenditure
- Always modern equipment
- Maintenance costs can be included into the leasing agreement
- A lighter balance sheet
