

Junttan LifeCare

Junttan
LIFE

Relax and keep piling

A Maintenance Solution built to maximize machine reliability, optimized to eradicate unplanned downtime, and designed to take stress and uncertainty away from the machine owners.

Junttan LifeCare Service Agreements enable machine owners to fully utilize their fleet availability, to fully focus on piling work without worrying about the condition of their machines.

Our dedicated professionals and network of trusted partners will take care of the scheduled maintenance according to Junttan Preventive Maintenance Program.

The LifeCare service system maximizes operational safety, maintains machine value and functionality without unplanned downtime.

The responsibility of the machine owner and LifeCare customer will be only with the daily and weekly checks and maintenance measures. LifeCare, especially when coupled with LifeCare+ service will bring the best return on machine investment over the machine life cycle.

Let's make machine ownership easy for you; together we will get there.

Junttan LifeCare

- Scheduled maintenance procedures in Junttan Preventive Maintenance Program
- Original Junttan Parts.
- High quality Junttan Service
- Available up to 8 000 hours

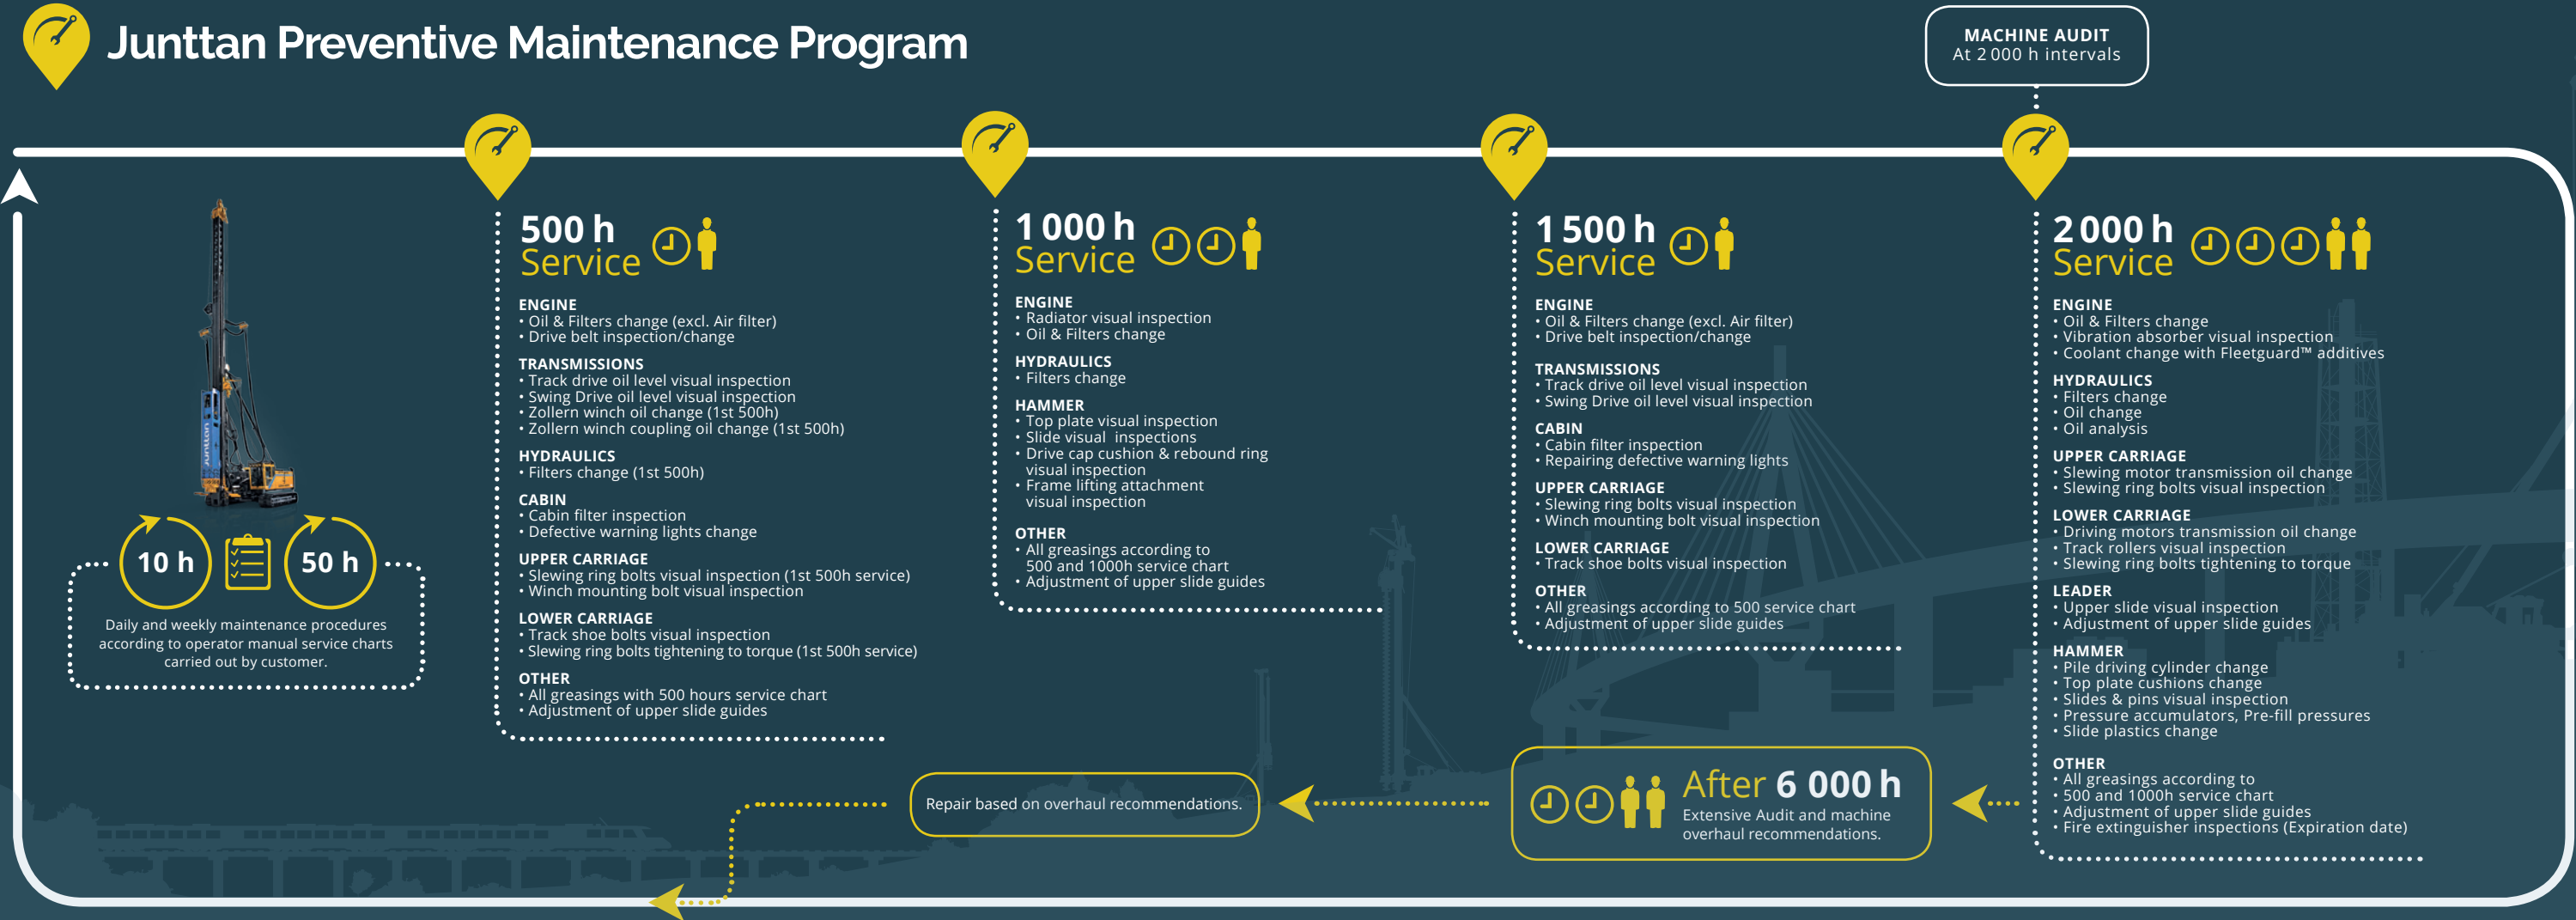

Junttan LifeCare+

- Extra protection layer to machine parts after factory warranty
- Extended coverage for major parts
- Available up to 6 000 hours
- Helps to reduce costs

Junttan LifeCare++

- Includes the consumables used in the equipment with all the lower-level LifeCare services
- User of the equipment only takes care of refuelling or charging the machine and daily maintenance procedures
- Lifecycle costs of maintaining the contract equipment are known in advance for up to 5 years
- Available for all new Junttan equipment in a limited market area

Junttan Preventive Maintenance Program

Why Choose Junttan LifeCare?

TOP LEVEL MACHINE
PRODUCTIVITY AND EFFICIENCY

CONTROLLED LIFE CYCLE
OPERATING COSTS

IMPROVED MACHINE
SAFETY AND QUALITY

MINIMIZED COSTLY DOWNTIME

EXTENDED MACHINE LIFE CYCLE

HIGHER MACHINE RESALE VALUE

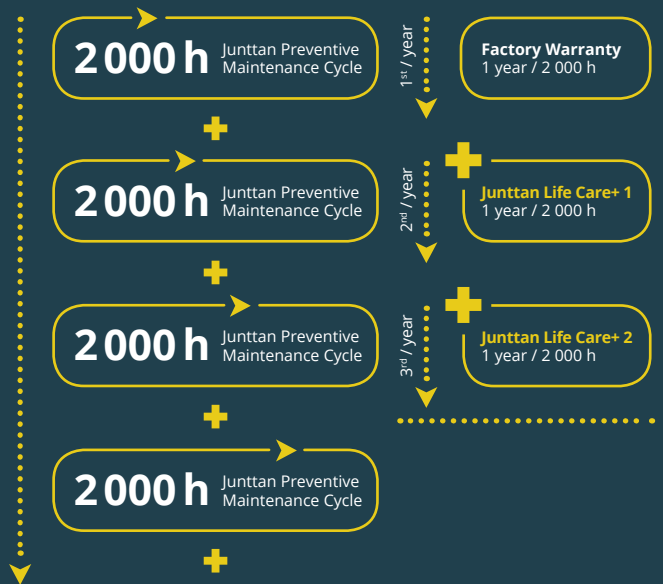

Junttan LifeCare+ is a purpose built solution for expanding the machine owner's protection. Designed to provide extended support in the event of premature failures in the machinery components.

The component manufacturers' warranty period is limited. Sometimes even adequately serviced and used components can suffer a malfunction outside the manufacturer warranty period not reaching its service life. For this reason Junttan has created an optional extra LifeCare+ service package to compliment the Junttan LifeCare service product.

LifeCare+ can be activated for all new Junttan piling rigs and hammers for service periods between 2 000 and 6 000 hours (one to three years) alongside an active LifeCare Service Agreement.

This solution is designed to give machine owners more predictability in maintaining new machines.

Junttan will lead you to better results.

Parts and components included in the Life Care+ coverage

LEADER MODULE

Lower slide	x
Basic leader	x
Mast foot	x
Upper slide	x
Leader extensions	x
Cat head	x
Steel rope wheels	o
Plastic rope wheels	o
Leader wear plastics and bronzes	o
Hose covers	o
Hydraulic hoses	o
Electric components	x
Leader cylinders	x
Pile arms and its cylinders	o

WINCHES

Motor	x
Drum	x
Frame	x
Directional control block	x
Steel wires	o
Brake caliber	o

HYDRAULIC SPACE MODULE

Electric component module	x
Main valves	x
Solenoid valves and other controls	x

UPPER CARRIAGE

Horizontal slide	x
Horizontal slide wear pads	o
Leader lift device and cylinders	x
Upper carriage frame	x
Electric component module	x
Hydraulic hoses	o
Main pumps	x
Cylinders	x
Cabin	x
Slewing mechanism module	x
Slewing ring	x
Cylinder pins	x

UNDER CARRIAGE

Track beams	x
Extension beams	x
Cylinders	x
Middle part	x
Track chains	o
Track pads	o
Track rollers	o
Drive gears	o
Front wheel with tensioner	o
Track guide wear pads	o
Drive gear motor and gear box	x

HAMMER

Frame	x
Extension frames	x
Cylinder (Separate agreement available)	o
Drive cap	o
Drive cap housing	o
Rebound ring	o
Cushion	o
Hoses inside hammer frame	x
Accumulators	x
Guide claws	x
Guide claw wear plastics and pins	o
Ram block	x
Ram block wear plastics	o
Ram block bolts and counter nuts	o
Top plate	x
Top plate absorbers	o
Top plate lifting bracket	o
Lifting pin	o
Sensors	o
Solenoid valve	o

ENGINE

Engine and attachments (Separate agreement may be available)	o
---	---

x = coverage, estimated technical lifetime longer 1+2 years

o = no coverage, wearing part, estimated technical lifetime less than 1+2 years
