ENGINE UPDATE KIT

Need to increase the lifetime and work possibilities of your Junttan rig? Update the old QSB6.7 Tier3 engine to Tier4i engine. With this modernisations the lifetime and productivity of the rig are increased. The engine emissions are reduced, allowing work in emission-restricted areas such as urban populated areas. This modification also saves money by reducing fuel consumption. This is a highly recommendable upgrade for getting more out of your Junttan rig.

BENEFITS

- Increases life-time of the rig
- Reduced engine emissions (DPF)
- Tier4 equipment is fuel efficient and more responsive than previous Tier3 engines
- Enables machine working in emissions-restricted areas
- Applicable to all Junttan rigs equipped with QSB6.7 Tier3 engine
- Outstanding uptime and in-service reliability

MAIN COMPONENTS

- Engine update package
- Cooler upgrade kit
- Engine sheet plates
- Diesel particulate system (DPF)
- Hydraulic pump 16+11 package

OPTIONS

- Available to all machines equipped with QSB6.7 Tier3 engine
- Available to PM23 and PM20 Junttan rigs
